

**We turn one
on Feb 4, 2017**

**Martha Farrell
FOUNDATION**

Martha Farrell Foundation turns one...

Martha Farrell Foundation (MFF) was set up to carry forward Martha Farrell's spirit and legacy by advancing her pioneering work on gender mainstreaming and adult education, with the overall goal of achieving gender equality in India and around the world. We support targeted and practical interventions in areas relevant to Martha's work, which include gender mainstreaming, gender equality, preventing sexual harassment and violence against women, and continuing education.

On February 4, 2016, we became a registered entity. On our first anniversary, we are reaching out to you, to not just to celebrate this day, but to make you a part of the cause that Martha Farrell lived for. The following section will take you through our journey so far. We look forward to you not just as an audience, but as collaborators to engage in [#FeminismInEverydayLife](#).

Our journey so far...
